# About Me

## Passionate student in web development

I'm Farah Mzoughi, a 2nd-year computer science student at university. Passionate about technology and web development, I've had the opportunity to complete enriching internships that have allowed me to develop my technical skills and ability to solve real-world business problems.

Beyond computer science, I'm multilingual and love taking on new challenges. My hobbies include drawing, sports, and camping - activities that nurture my creativity and personal balance.
